**RMC (Ready Mix Concrete) Plant at Shiye, Kolhapur**

**Date: 27/09/2025**

Our civil engineering department had arranged an Industrial Visit for SY CE class under the course of **Concrete Technology (313322)**. The venue was **RMC (Ready Mix Concrete) Plant at Shiye, Kolhapur**. Within visit students were came across the following points.

- 1) Layout and functioning of the RMC plant
- 2) Storage and handling of raw materials (cement, aggregates, water, admixtures)
- 3) Automated batching and weigh batching system
- 4) Concrete mixing process and mix proportioning
- 5) Quality control measures and standards followed
- 6) Transportation of concrete using transit mixers
- 7) Importance of time control and workability of concrete
- 8) Safety practices followed at the plant

For this visit total 19 students were present along with 2 faculty members of the department.
