REPORT

On

“ENGINEERS DAY”

Date: 16/9/2022

Class: SECOND AND THIRD YEAR

Department: Electrical

Engineers are shaping the future by applying their skills to almost everything. They convert the theoretical knowledge of basic sciences into actual products and thus make our lives easy. Engineers possess versatile minds and help in filling the gap between science, technology and the community. Engineers in India contribute greatly to the nation's technological and industrial growth. There really is no limit to what engineers can do.

Engineers' Day is celebrated on **September 15** every year in India commemorating the birthday of one of the greatest engineers in India and Bharat Ratna recipient, Sir Mokshagundam Visvesvarayyagaru, recognizing his contributions in harnessing water resources in India. He had successfully designed and constructed several river dams, bridges and revolutionized the irrigation system all over India.

The main objective of the event was to encourage self evaluation, motivation, effective communication and team building among the students.

Engineers Day Celebration

The program were started by lightning of lamp by our HOD Ms. S. D. Parmaj. Afterthat the all faculties were felicitated by students. Then she started the program by giving the speech on Engineers day. She said about the interaction of students is necessary in extra curricular activities. Also she motivated the students to participate in various events.

Students giving the speech on Engineers Day

After that remaining faculties also gave the speech on engineers day. All this program were organised by the students. They had arranged so well. Students also gave the speech on that day.

**“To the optimist, the glass is half full. To the pessimist, the glass is half empty.
To the engineer, the glass is twice as big as it needs to be.”**
