Soft Skill Programs

❖ **Soft Skills Training**

Soft skills provide students with a strong conceptual and practical framework to build, develop and manage teams. They play an important role in the development of the students' overall personality, thereby enhancing their career prospects. The soft skills training provides strong practical orientation to the students and helps them in building and improving their skills in communication, the effective use of English, business correspondence, presentations, team building, leadership, time management, group discussions, interviews, and inter-personal skills. This training also helps students in career visioning and planning, effective resume writing and dealing with placement consultants and head hunters.

The training in soft skills has two parts. One part involves developing attitudes and attributes, and the other part involves fine-tuning communication skills to express attitudes, ideas, and thoughts well. Crucial to successful work is the perfect integration of ideas and attitudes with appropriate communication skills in oral, written, and non-verbal areas. Attitudes and skills are integral to soft skills. Each one influences and complements the other.

The training is conducted in a very informal, interesting, and interactive manner, which gives ample scope for the students to interact with each other and face a wide variety of issues, topics, and situations that they are likely to come across as entry-level managers

Objectives of Soft Skills Training

By the end of the soft skills training program, the students should be able to:

- Develop effective communication skills (spoken and written).
- Develop effective presentation skills.
- Conduct effective business correspondence and prepare business reports which produce results.
- Become self-confident individuals by mastering interpersonal skills, team management skills, and leadership skills.
- Develop all-round personalities with a mature outlook to function effectively in different circumstances.
- Take part effectively in various selection procedures adopted by the recruiter

Sub: Training for F.Y. and S.Y. BTech Students

Respected Sir,

To meet the market demands, students needs to be jacketed with trainings such as Communication Skill, Professional skills, Aptitude skills, Technical skills, Software skills etc.

To serve the same purpose, we are planning to execute Training sessions for F.Y. B.Tech and S.Y. B.Tech students of our Institute throughout the year.

After discussion with three Training institutes, we came to conclusion that, shikuyaa.com is better option. Proposal of the same is attached herewith.

Kindly, guide and permit us for the betterment of Students and hence Institute.

Thanking You,

Yours Sincerely,

(Prof. S. M. Tamboli)

Sub: Proposal for Continuous Learning Programme (Comprehensive training from First year to final year)

Dear Sir,

We function in the ecosphere of employability skills development for the last 8 years. We are associated with many Engineering colleges touching around 100000+ students' careers over this period of time.

The training covers cognitive ability skills, interpersonal skills, language proficiency training and programming basics. Our mobile application helps students to stay tuned with us even after the training. Serving for more than 8 years in the field of training and placement we have built an ecosystem for complete placement readiness of a graduate with our differentiators. So we are all set to help the students of your institute to grab their first job offer on campus.

Continuous learning programme is our comprehensive training module covering all the aspects of placement readiness of a candidate from first year to final year. Sharing the proposal herewith.

Kindly request you to go through the same and guide us further.

CERTIFICATE
OF PARTICIPATION

THE CERTIFICATE IS PRESENTED TO:

Aditya Zjit Patil

For successfully completing 2 days training from 14th October 2022 to 15th October 2022
on "Employability Skills" under "LifeSkills" programme organized by Rubicon
at D. Y. Patil Technical Campus, Faculty of Engineering & Faculty of Management, Kolhapur, Maharashtra.

Shanya Narayanan
Chief Operating Officer

Language & Communication Skill

❖ Language & Communication Skill

As we all know language learning is a skill and it is acquired by regular practice. We learn a language for specific purposes like, to express our feelings, ideas, conveying messages, having conversations on various topics.

Communication is the exchange of information and ideas, whether written or verbal. Effective communication skills are about conveying your message to others clearly. Communication is an important skill for successful businesses and for building relationships by influencing interactions either positively or negatively. Effective communication engages the choice and use of an effective communication channel and presentation of information to the target audience.

Developing interpersonal skills is an important aspect of effective communication. Interpersonal skills encompass the verbal and non-verbal aspects of a message. You should be able to communicate with other people under different circumstances. Whether it's sharing good news like a job promotion or bad news, like a death in the family, knowing how to handle various situations is essential in being a good communicator.

Communication helps us construct our social world. It allows us to create and maintain relationships, it helps us participate in civic activities in our community, and strong communication skills allow us to advance in our careers. Communication influences all aspects of our public and private lives.

Objectives of communication skill:

1. To enhance the ability of the students to participate in group discussions and personal interviews
2. Understand and apply communication theory
3. Critically think about communication processes and messages
4. Write effectively for a variety of contexts and audiences
5. Interact skillfully and ethically
6. Develop and deliver professional presentations
7. Engage in scholarly inquiry and social scientific research
8. Recognize the effects of diversity, access, and power on communication

Coordinators Report on One Day Workshop on Business Communication for Engineers on 29/12/18

Around 120 students took the benefit of the workshop. Many students were motivated by the talks of the Speakers and I am quite sure that 100 % students will implement the techniques shared by speaker to improve communication. Similar workshops must be integrated in the syllabus itself.

Life Skills (Yoga, Physical Fitness, Health and Hygiene)

❖ Life Skills(Yoga, Physical Fitness, Health and Hygiene)

Life Skills Training is designed to make the students physically and mentally fit to lead their day-to-day life more effectively and efficiently and to train themselves in the competitive and stressful environment. It enable students to understand the significance of a healthy mind and body to lead a fruitful and successful life. Major trainings include:

1.Yoga

Yoga education helps in self discipline and self-control, leading to immense amount of awareness, concentration and higher level of consciousness. Briefly the aims and **Objectives of Yoga education are:**

- 1) To enable the student to have good health.
- 2) To practice mental hygiene.
- 3) To possess emotional stability.
- 4) To integrate moral values.
- 5) To attain higher level of consciousness.

2.Physical fitness

The overarching aim of physical fitness is the ability to perform the necessary aspects of your sport, job or daily activities and withstand the demands those put on you physically, physiologically and mentally.

Objectives of Yoga education are:

- 1.Zero levels of stress and tension
- 2.Physical strength, stamina and flexibility
- 3.Greater powers of concentration and self control
- 4.Better organ functioning
- 5.Sense of balance and internal harmony
- 6.Healthy & glowing skin
- 7.Strong Immune System etc..
- 8.Health and Hygiene Programs

3.Health & Hygiene

To facilitate in prevention, mitigation and elimination/eradication of communicable diseases of public health importance including emerging and re-emerging diseases.

Good hygiene is critical for preventing the spread of infectious diseases and helping children lead long, healthy lives. It also prevents them from missing school, resulting in better learning outcomes.

For families, good hygiene means avoiding illness and spending less on health care. In some contexts, it can also secure a family's social status and help individuals maintain self-confidence.

Objectives of Health & Hygiene education are:

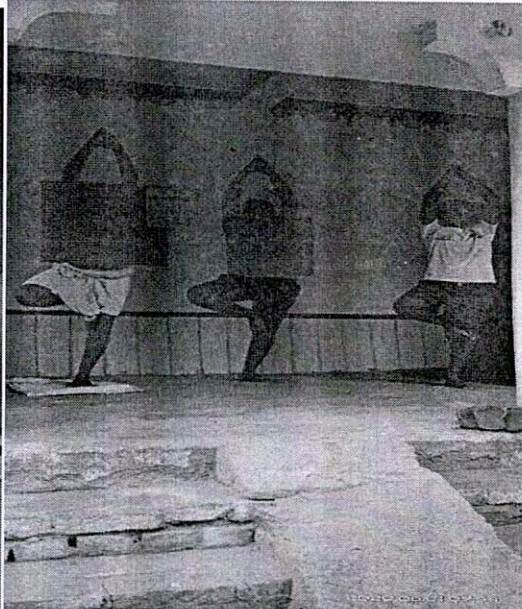

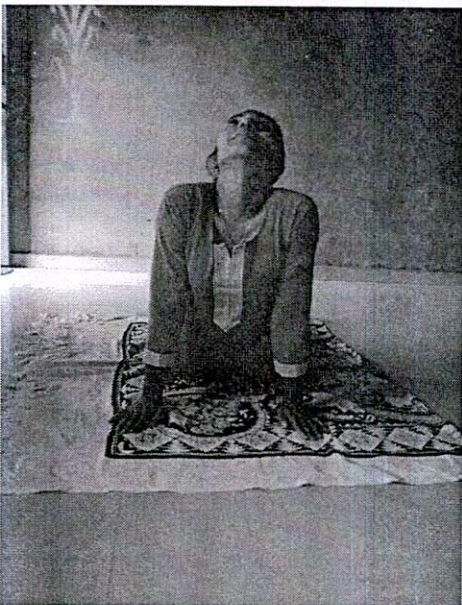

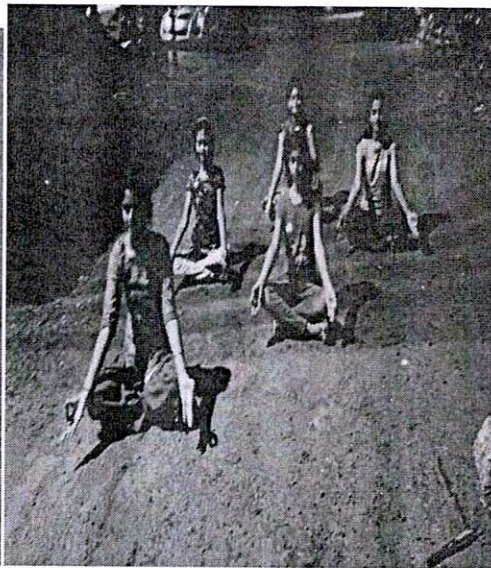

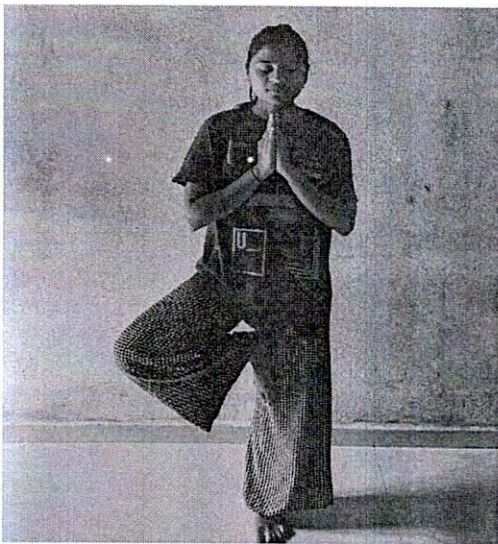

- 1.To promote healthy living and to facilitate prevention, early detection and management of non-communicable diseases.
- 2.To ensure provision of state-of-the-art Emergency Care Services, including medical, surgical (especially Trauma and Burn Care), pediatric and obstetric emergency care for all.
- 3.To provide technical support to address climate change issues impacting health.
- 4.To lay down specific standards and norms for safety and quality assurance of all aspects of health care including Patient Safety, Hospital Acquired Infection and Antimicrobial Resistance development.
- 5.To facilitate management of digital information related to health status of the population, health infrastructure and health Services.
- 6.To comply with the provisions of International Health Regulations.

5.1.2 3. Life skills YOGA

In Lockdown, NSS Volunteers done Yoga On the Occasion of International Yoga Day in their Native Places as per Instruction of NSS Co-Ordinator Mrs.Tejaswini S Adnaik

Date 21 June 2020

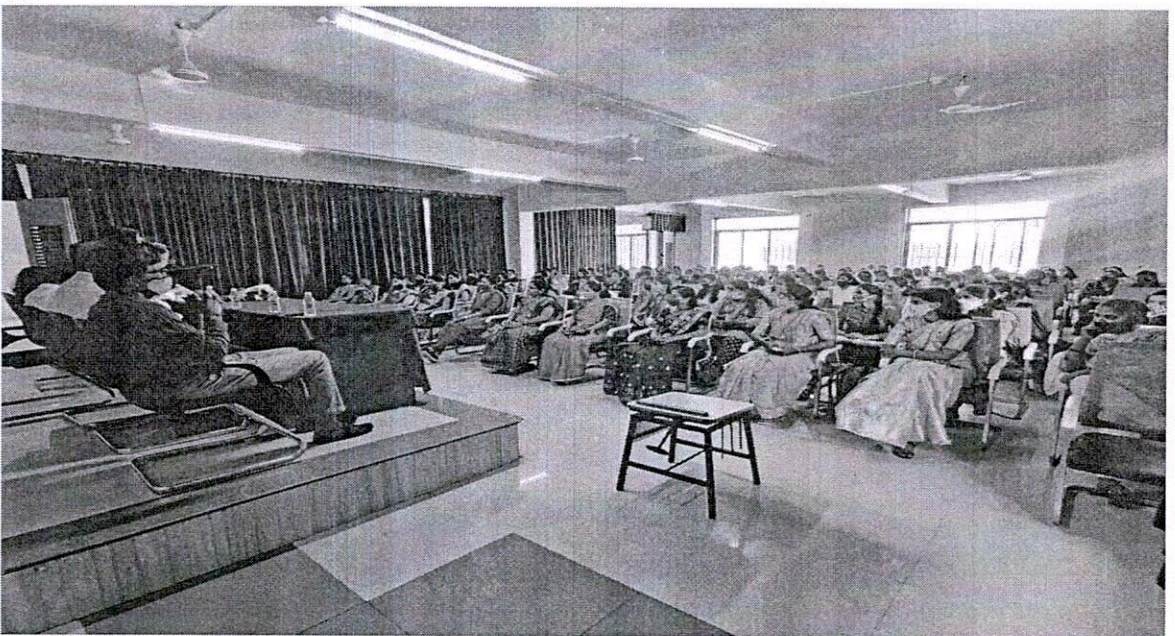

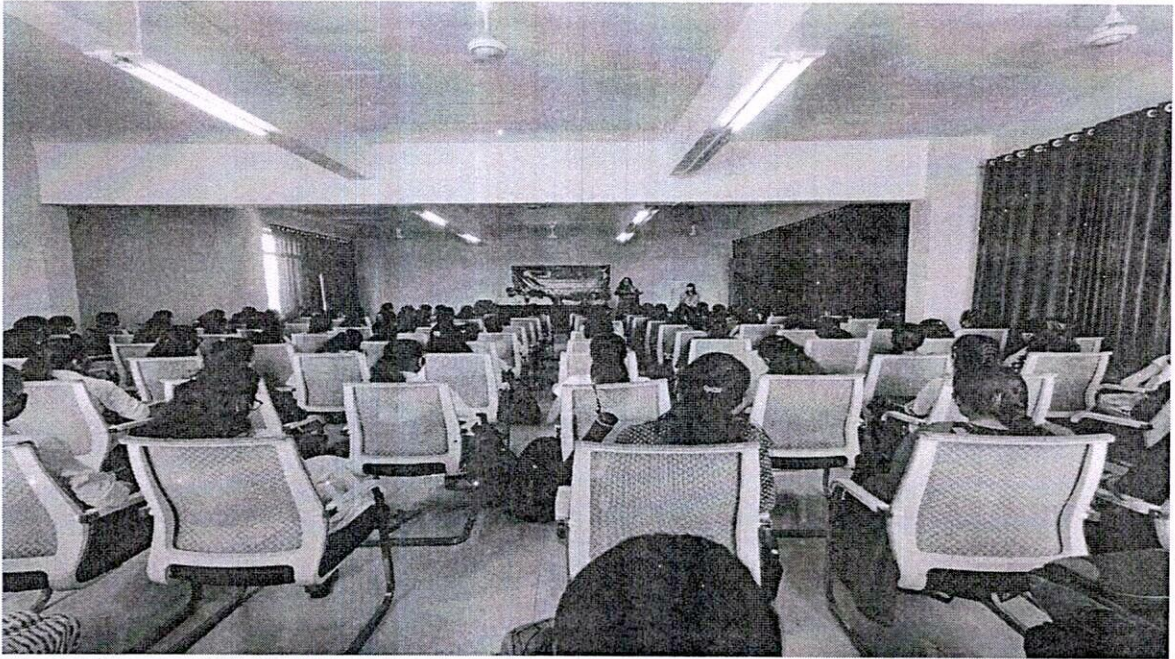

Health & Physical fitness

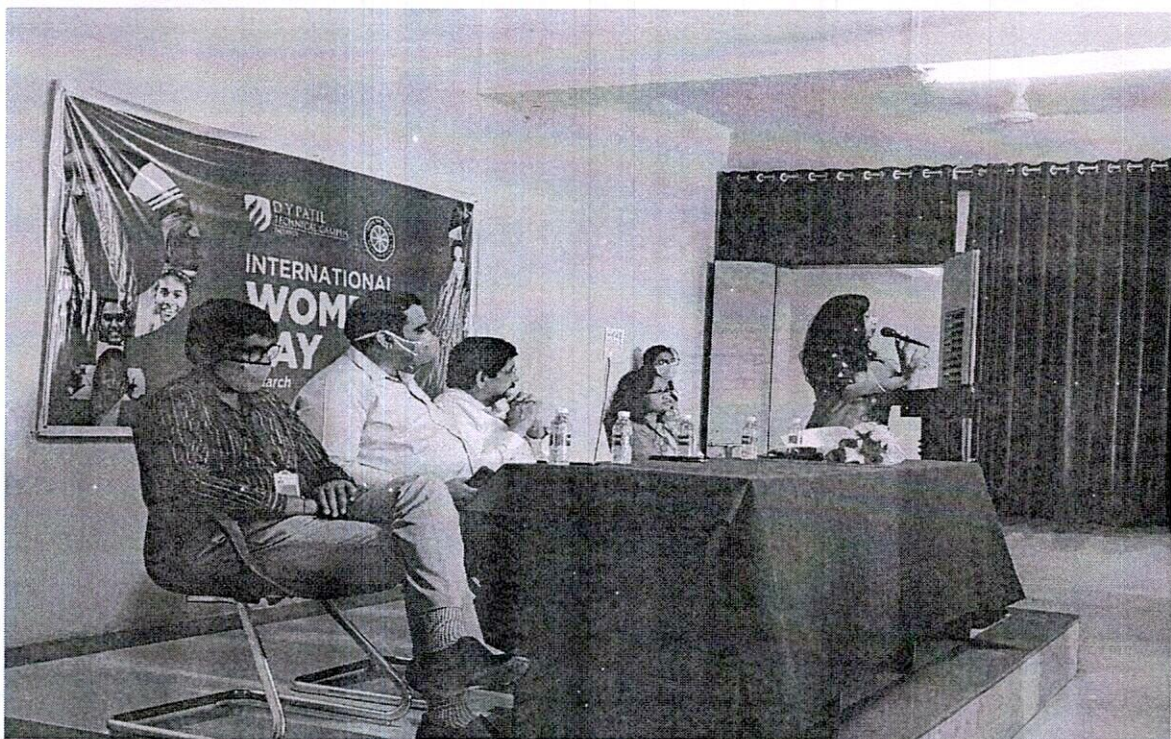

National Service Scheme of D.Y.Patil Technical Campus Talsande has organized informative Speech on topic " Physical and Mental Health of Women's" on the Occasion of International Women's Day 8 March,2021.Lecture is delivered by Hon. Chief Guest Dr.Priya Dandage Mam.She explained women should take care of own physically and mentally while taking all responsibilities.

ICT/Computing Skill

❖ **ICT/Computing Skill**

Information and communication technology (ICT) is an element of many industries, allowing companies to use different tools to complete everyday tasks like sending emails and using programming languages to build proprietary business software. Having any level of competency in ICT skills can allow you to pursue a job that involves working with technology. Understanding what these skills are and how to develop them can help you no matter what profession or career path you choose to explore.

ICT skills are abilities that help you understand and operate a wide range of technology software. This can include helping users with tasks on computers, such as making video calls, searching on the internet or using a mobile device like a tablet or phone. ICT skills can also include any direct interaction with technology, including turning on a computer, using hardware to print and copy documents and using digital cameras to capture photographs or video footage.

Objectives of ICT/Communication Skill

1. Utilitarian Objectives-

One of the main aims of ICT is to help students to become competent and confident users who can use the basic knowledge and skills acquired to assist them in their daily lives. It is also supposed to prepare students for the world of tomorrow. It aims to help learners to have an open and flexible mind. At a very young age, children are introduced to basic programming, modelling and software applications to create appreciation of technology in everyday life.

2. Social Aims-

It aims to equip learners with the appropriate social skills required to cooperate with fellow ICT learners for a more productive learning experience. It empowers students who are unable to use this technology outside the school premises by ensuring sufficient access to those students. Another social objective of ICT is to facilitate good communication between the students, thus promoting better social understanding.

3. Cultural Objectives-

ICT aims to assist students to appreciate the beauty and diversity of culture. It also aims to help students become well-cultured citizens of the modern world. It achieves this as it facilitates the discovery and appreciation of various cultural heritages of different countries around the world. . Geographical barriers are easily transcended, which expands awareness of the other societies and distant places.

4. Personal Objectives

ICT aims to assist students to grow personally by facilitating different methods of learning. Distance-learning programs are now provided by most colleges and universities. Many people are using these programs to get degrees that they would not have been able to receive without ICT. It also aims to allow the public to easily access the necessary information over the Internet.

Sample Certificate of Participant

D Y PATIL TECHNICAL CAMPUS
FACULTY OF ENGINEERING & FACULTY OF MANAGEMENT, TALSANDE, KOLHAPUR
DEPARTMENT OF GENERAL ENGINEERING

Certificate of Appreciation

This is to certify that, **Trupti Ashok More**
has attended webinar on "New Trends in IT Sector" organised on 13th June 2021 by
Department of General Engineering, D.Y. Patil Technical Campus, Faculty of Engineering
& Faculty of Management Talsande, Kolhapur.

Certificate ID - CHJPAI-CE000006

Dr. S. R. Pawaskar
Director
DYPTC, Talsande

Prof. K. K. Sahasrabudhe
H.O.D
General Engineering
