D Y Patil Technical Campus

Faculty of Engineering Faculty of Management

Talsande -416 112 Dist: Kolhapur

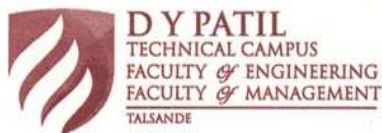

(Approved by AICTE, New Delhi, Recognized by Government of Maharashtra & Affiliated to Shivaji University, Kolhapur)

Institutional Distinctiveness :-

The establishment of D.Y.Patil Technical Campus Faculty of Engineering & Faculty of Management is an additional step taken by Hon. Dr. Sanjay D Patil, President of D Y Patil group towards the excellence in the field of education in the year 2011. D.Y.Patil Technical Campus being a research and innovation driven institute, encourages students towards research and innovation practices. All the PG and UG students are also encouraged and given opportunity to get involved in research efforts. Non-teaching credit courses like B.Tech Major Projects and M.B.A Dissertation are made research driven and a number of scientific papers and patents have come out of this work as an outcome. Beside this, there is a credit course by name Research Methodology which is intended for Advanced Learners and for those students who have interest in research and innovation. Research Methodology course is a research driven course to PG students. In this course, students are given a research problem on which they work with the possibility of a publication, patent, design or technology. The student is required to present the body of work in an objective report and demonstration thereby enabling their critical thinking abilities in problem solving.

We believe that college life is not all about academics, games, friends, and fun. It is also about learning to interact with other people, being aware of social, environmental and gender issues, and inequities in the society. We provide an opportunity to every student to contribute to make the society in which they live a better place and to grow as better individuals. DYPTC has committed itself to the task of inculcating social values and responsibilities in its students. Along with other sports cultural and technical activities, the NSS unit plans activities like tree plantation and field visits to expose the students to the pressing issues in our society. As a special thrust, societal development is also practiced on a large scale by the students through the active NSS unit which undertakes various services to inculcate social values. Throughout the year, the NSS unit undertakes a plethora of events ranging from street plays, cleanliness drives, tree plantation drives, donation drives, waste management drives, gender equity, field visits and many more.

Several activities are undertaken for the first-year students to expose them to the pressing environmental issues that ail us. They are taken on field visits to related industries and encouraged to participate in competitions dealing with environmental issues. The poster competition event was introduced last year exclusively for the first-year MBA students to present their ideas to start-up of new business to promote the Start-Up India initiative taken by the government of India

DYPTC have Established Technology Business Incubation Centre within the campus. At present, industrial growth is satisfactory in Kolhapur region and in future it will be accelerated. Therefore, there is considerable scope for innovations and consultancy from the nearby industries. Therefore, we have established the research Centre with all latest and hi-tech equipment to fulfil the requirement of nearby industries in respect of testing, calibration, consultancy, research, etc. The centre ensures to promote research ability of engineering as well as MBA students and motivates them to come up with new product ideas which can be filled as patents and can generate the funds which can be utilize for further research work which will be beneficial to the society. D.Y.Patil Technical Campus believes that the abilities and knowledge of students should be used for the betterment of the society.

DYPTC DISTINCTIVE FEATURES:

- Institute provided inclusive technical education so that a deserving student.
- Institute provided holistic education to develop skills, knowledge and values through well-structured curriculum and instructions.
